

Mondosport I

MONDOSPORT I

Multi-purpose Point Elastic flooring in PVC.

Surface layer with embossed, matt and non-slip finish, calendered and pressed to a vinyl foam underlay.

The floor can be glued directly on a suitable subsurface or installed to the stabilising underlay Everlay with a suitable adhesive.

Mondosport I + Everlay = Waterproof coupling

Mondoflex I can be combined to the waterproofing underlay Everlay during installation that is dry laid on a suitable subsurface.

The combination combats moisture problems and prevents the formation of surface bubbles.
